The Straits Open! First Arrival from Below!

To the surprise and gratification of our for worders, Merchants and others, the good steamer Giole, Capt. Pearr, from Buffalo, came steaming galiantly into our port, yesterday afternoon; followed within helf an hour by the staunch Pro-Beller Forest Cly, Capt. PRESTY. We learn from Cap. Pagarr that he succeeded in getting three the Straits et Mackinac on Monday, after six day beleation by the ice. The Propellers Fortogers, Illinois and others came through in e negative and a large fleet of sail vessels were uniting a wind to follow. The Straits were f. I dice, but are doubtless pretty free by this time. The Forest City met several of our Milwholese fleet, bound-down, near the Manitor- and left the Badger State, in the South Pasact at Mackiene, in company with a large numhat of Propellers and sail vessels, all bound up,

but stopped by the ice. The Globe, after dischaging here, went on to Chicago, She will leave this port, on her return time Priday evening, and offers good accommodai as for pessengers. The Emigrant Agency,

the Wisconsin of Monday seizes upon, and makes much of the following rather equivocal ondorsement of Speaker Hoan's appointment as Engrant Agent at New York.

Finguian Agent at New York.

THE Englactics Commissioner.—The Janesellic Gasetic, a standard white paper, says:
If the congrunt agency is of any value inhalmer,
the appearament of Mr. Horn is a very good one,
in view of experity and qualifications, Mr. H, beme well adapted to the duties of the office.

—W. All Conf. The Conf. We agree with the Gazdle, that if the agency to of any value whatever, the appointment of Mr Hous, so far as his qualifications are concerned, is well cheegle. But we think it highly objections bis in other respects. The Speaker, like Senator Henre McLase and Virtum, has got his payand indeed, as in their cases, by a deliberate is fraction of the Constitution, but yet, as we be inverte, by an unsuthorized exercise of the appoint and power. In other words, Gov. Barerow, in making this appointment, has transcended his authority, abused his trust, and put the State in for

of the propie, but without warrant of law. What is the law in reference to the Emigran Areney : The first act framed was that of 1852 and provided that "a Commissioner of Emigra-"tom for the State of Wisconsin, shall be appoint-

a bill of \$3.500, not only against the expressed

will of the Legislature, and the general sentiment

and expenses of said agent. Under this law, Gov. PARWELL appointed Mr. VAN STRENWYE emigrant Agent. In 1853, another law was passed, provi ming (Section 1,) that "the Commissioner of Emligation shall keep an office in the city of New Tonk, from the first day of May, 1853, to the first day of May 1954" &c., & appropriating \$3,800 for salary and expenses. To this office the Legislarate elected HERMAN HARRIER. Both of the act quotest limited the duration of the office of Commissioner, and as the last Legislature passed ne law continuing the agency in force, or appropriaring money for another year, we hold that the oftice expires on the 1st of May, next, and therefore that the appointment of Speaker Houx is unauthorized and void.

State Expenses.

Says the Madison Democrat in answer to a article which appeared some days since in the

Internal;
The Journal, speaking of what we said on the subject of legislative oppropriations, delivers itself, we can't say very clearly, as follows:

"As a specimen of its candor it takes the following item of expenditures for the present year;

"miscellaneous items and chima, taxes refunded, distribution of deciments, &c., \$12,000." This it publishes as "miscellaneous!" and says it is "pere moonshine." A reference to the Report of the late "Democratic" Secretary of Slate will show that this is his estimate and not the Scatished."

And a reference to the list of appropriations will show that the objects for which Mr. Robinson estimated under the head of "Miscellaneous" are pseudoally provided for and paid. That is what we meant by saying that the Sentinet reckoned various things twice over. It gave the specifications which amounted to some \$11,000 or \$15,000 and there make a non-heating to the same. stems which amounted to some \$11,000 or \$15,000 and then made a rough estimate of the same operate at \$12,000 and added both to its sun road of "extraorgrams," which seconds for the profitness facility with which it run up the ac-

PORTAGE CITY.—Nearly all our merchants are east for their Spring stock, and the boys are preparing to receive them. Buildings are going up in various parts of the town, and a sprint of life and animation seems to pervade community. Mr. Veeder has brick and lumber on the ground for a large hotel, and quite a number of handsome residences are in progress of building; some in a style of elegance superior to any that have here-tolore been built. The walls of the elegant stone fleuring mill of Burgera & McNeal, on the canal are up, and the whole will be fluished and in running order in time for the next crop of wheat. The motto of Portage is "onward."—Budger State.

FINE RAIN,-After a dry spell for some weeks on Thursday last we enjoyed a fine shower.— Since then there has been a plentiful supply of rain which has had the effect to bring forward vegetation rapidly. Winter wheat has suffered considerable from the dry weather, but it will now revive.—Watertown Register.

We were favored with a number of fine showers yesterday, accompanied by than der and lightning. To-day the sky is again clear and the weather magnificent. The thermometer stands at 72 degrees in the shade, and between 80 and 90 in the Suri, Such weather is bringing vegetation rapidly forward.—Mullison Journal.

TWO HUNDRED AND FIFTY LIVES

We have received the full particulars of the less of the above vessel on Long Beach, on the night of the 15th of April, brief telegraphic accounts of

The sterm which was falt here on Friday, and which taged during the three successive days, is represented as having been unprecedented in its violence on the Atlantic coast. Its entire rage was wreaked upon the ship Powhatan, an old vessel of six hundred tons, which on Saturday night after unning before the gale for some hours, under have poles, found herself at last irretrievably entangled in the sheafs about twelve niles below Barnegato indet.

The ship, laden with passengers, left Havre for New York on the 1st of March last, under the command of Capt. Meyers, of Baltimore. She was driven among the sheafs at the place we have mentioned above, and remained there until Sumhy evening at 5 o'clock before she went to pieces. Summy evening at 5 o'clock before she went to pieces. It was observed by the anxious (50 witnesses on shore that directly she struck she should to the wind,' from which discumstances it was impossible for any of her passengers to leave without certain death being the result.—
They trusted that the storm which had now lasted so long must seen about. During the long night of Saturday and the whole of Standay, the might of Saturday and the whole of Sunday, the infinitunates—it is supposed some two hundred and fitty in number—were seen clinging to the leaward bulwarks of the ship, with the Sea continually washing over them, and expecting death at the tise of every succeeding wave. No assistance could be offered to them, for the sea then seen on both these part of them for the sea then

numbered two hundred and fifty souls that same moraing. A singular fact connected with this is for that even the ship itself was splutened into minute fragments, so that scarcely a trace of her existence remained, with the exception of a few pieces of the rigging that were washed ashere. She was probably laden with heavy ballast, for her holl is supposed to have sunk, or clee some portion of it must have been discovered.

More discressing even than such a sight as this to those on shore, was the sight of the heach the next morning. The storm had increased during the hight, and the waves cast up their dead for and hear. Twenty-six more and two women were discovered near the scene of the shipweek, and from Abscrome-some twenty miles below we learn that about forty bodies, men, women

Little has been collected yet from the wreek to prove the identity of the decassed parties.—Some melanchely recoals, however, have been saved, and are tow in charge of Mr. Jennings, the wreck master, at Manahawkin. About thirty five passengers' boxes were washed asince unbroken. Money has been found. Around doe man's waist a belt was clasped containing \$40—his all probably—that he vainly sought to save. On this belt the name of "G. Kill" was engraved. Servard of the trunks bore respectively the initials "T. G." "S. G." on another "R. Griffin" was written, and en contact "Philip Smith, for New Tork" Alady's ring was found with the mittals "K. L." inscribed upon it.—These are all that have been discovered as yet—Intrinsically they are trifles, but they will speak volumes to when their lost friends clung in the last boars of life.

ast hours of life,
About seven o'clock the ship's masts went by the board, and almost immediately afterwards the hall bursted in two, and every soul on board was humohed into oternity. The sea presented a black mass of human heads and floating pieces to rise no more. The beach was strewn with the dead bodies of men, women and children, pieces of the wreck, the beggage of the pussengers, and empty easks. Noting remained to mark the spot where the ill-fated ship had went down avone sureing ways beating mone.

while the wind wailed houd and mourastiff, and ding still more hours to the awful catastrophe.—All had sunk—captain, officers, crew and passengers, of two hundred and fifty persons—not a soil least left to tell the tale. No hid came from the government house that night, and Capt. Jennings was composed to remain there by himself, a lonely watcher of the dead.

Territory.

They propose to give, to-night, at Young's

way back to the wreck on Sanday, with the He car and mortar, two of them fell down exhausted, and the whole party were obliged to return, nearly frozen to death. This party of men, under command of Capt. Jennings, set immediately about finding and gathering together those bodies that had been washed ashore. In the short space of an hour nearly twenty women and children were found, almost maked, scattered along the beach, some of them deadfully bruised and out. One may was found about fifty varies from the beach, some of them dreadfully bruised and cut.

One man was found about fifty yards from the beach, upon the sandhills, with a child in his name; and from this condition it is supposed that he alone of all on board reached the shore alive, and crawling out of reach of the waves in order to save his own life and that of the infant in his arms, fell down exhausted on the send, and was frozen to death during the night. The child was finally locked in his arms, quite dead, and appeared as if it had also died from exposure.

The whole of this day was spent in searching for the bodies of the unfortunate people. But one man was found among the number, all the text being women and children. They appeared to have been in excellent bealth, with resy cheeks and smiling faces, looking as if they were insleen

On Thursday twonty-two bodies were removed from the beach to the village of Manhawkin.— These consisted of one man and twenty-one children, all apparently, by their features, appearing to be Germans, the women who had any clothes on being dressed in coarse materials, with heavy shoes, some of them wooden ones. All the dead were conveyed to an outhouse of Squire Peckworth's, where they remained until coffins could be made for them. This melanchely task of making receptacles for the dead, occupied file attention of the men residing in the village, while the women were busily employed in washing the bodies, and laying them out, preparatory to their being placed in the coffins. Too much praise cannot the awarded to the inhabituits of Mauhuwkin for their zeal and industry in giving a decent On Thursday twenty-two bodies were r

Document No. 1, is the letter of instructions to Mr. Gunnson, authorizing him to proceed with the work. As the Government appropriation is the city baving agreed to raise \$50,000 for the purpose, he is allowed to continue the superintendence of the work. He may furnish estimates of work done, but is to take no responsibility for the disbursement of money, and it is not to be understood that any claim accrues upon govern-

breetion of his successor. Signed by Col. ABERT, Chief of the Topographical Corps. the Secretary of War, giving various plans and estimates and suggestions. The original plan was estimated at \$92,184, which after exhausting the \$15,000 appropriated, would leave a balance of \$77,184. The revised plan, which carries the piers into 12 feet water, is \$59,525, which leaves balance of \$44,525, or considerably less than the amount mised by the city. Col. Accerstrongly recommends the keeping open of the old harbor, and estimates the cost of repairs &c., at \$10,000. He recommends that the north pier be carried out firs; nearly to its whole length,-no

nany water, and extend into the lake in a direction North 8! degrees East. Terrible Suffering on the Powhatan. thich we have received here several days ago.which we have received not several anys ago-it has been very solden our fortune to have per-used so horrible and distressing an account of suffering. The details of the wreck of the Pow-hatan are even more terrible than the loss of the Mexico and Bristol 18 years ago.

The storm which was felt here on Friday, and additionable decided the three on Friday, and

at the use of every succeeding wave. No assistacts could be offered to them, for the sea then
ran so high that a boat, (if any haid been at
hand,) would have been instantly swamped.

Between four and tive o'clock on Sunday afternron the ship's bulwarks burst, and about 50
norsons, at the same moment, were washed everboard. Mr. Jennings, the wreck-master, with
others, made great effort to save those who
were in the water, but in vain. The captain
too, was heard to cry from the ship, "For God's
sake save some of those who are drowning."

Every exertion was made, but it was of no use;
and in all of the six bodies which the wreckmaster succeeded in rescein g from the water, life
was extinct.

mester succeeded in rescuin g from the water, fits a was extinct.

It was immediately after this that the ship commenced going to pieces in earnest. No small loasts to be procured, for the government boats did not arrive until all was over. About 5 o'clock the vessel was completely breken up, most of her passengers and crew were drowned, but a few still survived, clinging to pieces of the wreck. The shricks of the dying rose even above the reating of the storm, which seemed to be increasing rather than subsiding in inty. It was at the unment that a large wave was noticed rolling inwards—the dead and the dying were alike congulphed within it—and when it had pressed over them, there was not one left alive of those passengers and crew of the ill fated from haton, who manbered two hundred and fifty scalls that same morning. A singular fact connected with this is,

and from Abscent—seate twenty miss below-we learn that about forty bodies, men, women and children—had been washed ashore on that and on Brigantine Beach, about a quarter of a mile across the channel.

Twenty-eight of these found were decently buried at Manahawkin, and the profound sen-sation that the event has caused in that tillage.

Recklessness of Legislation and Reck-

lessuess of State Officers.
It is generally conceded on all hands, that the It is generally conceeded on an indial, that the late legislature was the most neckloss and imbecile dainy that has ever assembled since we have been a State. Appropriation after appropriation has been made with no regard to justice or economy, legality, or constitutionality.

A few specimene only, will suffice to illustrate

Mr. Booth, of the Milwankee Free Democrat Mr. Booth, of the Milwaukee Free Democrat, appairs for and receives an appropriation of \$35, for gapers furnished members of the Legislature for the June Sessian of 1253. But it terms out that at the close of the Session there are found on file two appropriation bills to Mr. B., both for the same period, and both signed and approved by the Governor on the same day, April 1st, 1854—This is clearly a double appropriation; who is at fault? we do not pretend to say, others can judge se well as we. Again an appropriation bill was rejected by the assembly in favor of S. Park Com for \$22, for service before the committee of Impaschment, (service daimed for a large number of days more than the committee were in her of days more than the committee were in session.) Yet this same bill, duly signed by the President, Speaker and Governor is on file in the Secretary's office.—Fond du Lac Herald.

The Herabi is mistaken relative to the last bill referred to. It was passed by the Senate, though chearly shown to be wrong in amount, and never was taken up in Assembly at all. Doubtless it mondé have been rejected at once.

Gods Advice. The Portage City Badger State -democratic - thus discourses to its readers;

We wish to "improve this occasion" to impress upon the prople the doty of attending to their organization in the manination of randidates, and the waste of labor of political gamblers in forming combinations to obtain or perputuate power by cheating the masses. That it has been successfully practiced we allow, and in some regions the combinations known as a "Regency," a "clique," "Old Hunkers," &c., have for a time monopolized the offices and profits of a State; and the result has been disastrous to the interests, the morality and good order of society. But that order of things has passed away. The system of bargain and trade for office is exploded.

We cheerfully endorse every word of the above, -democratic - thus discourses to its readers;

We cheerfully endorse every word of the above except those contained in the last two sentences. We think that the "order of things" referred to is just precisely the order of the day now.

A Prope ATTEMPT .- We learn that are n was A. Pook ATTEMPT.—WS learn that and a was made upon the Oshkosh City Bank a few days since by interested parties. It was made for a bad purpose, but resulted in good to the Bank—Dr. Henning, the Cashier, having given them all tie gold they wanted, besides having "lots mote of the same sort" left in the vault. The credit of tiest Institution will never suffer for honesty and Circ dealing us home as Or. H. holds the keys. fair dealing as long as Dr. H. holds the keys .-

The Galena.

This beautiful steamer came in on Thursday evening. Her size is that of the War Eagle and her general structure is similar, though from some cause she draws a few inches less water. We ner general riceture is sundar, though from a vectors these hosts a great triumph of good judgment and mechanical skill, in combining in a very high degree the requisites of our mavigation, sufficient power and spead, light draught, extensive passenger accommodations and aufficient room for freight. In these particulars, we look for no material improvement hereafter on the Galena and War Eagle. They are an honor to our city, to the company that projected them, and to the mechanics who built them. We predict, that all will find their investment of money, skill and enterprize well rewarded.

The Galena, as has before been stated, was built at Cincuncati under the superintendence of Capt. Orth Smith, the President of the Galena and Minnesson Packet Company, and for Company. She is 225 in length, 31 feet beam, and 5 feet hold: She has four boilers 36 inches in diameter and 25 feet long; her cogines have 19 inch

DR. URBAN'S

AMPY-BACCHANALIAN ELIXIR: A Safe and Sure Remedy for the Cure of INTEMPERANCE. T is not in the least injurious to the system. If is plessing and to the tate, and will cure the hardest cases of intemperance. We near-antity in all cases, if taken according to directions. It destroys the deser for all archet spirits when strictly taken according to directions, and will restore the individual to the same state of abbriefy in which he was before the ever drank a drop of the ardent, and he will not have the least desire for intentioning drinks. Intemperance is a disease; and as such the greater the excess in drinking, the more spendilly is the disease dwelfoped, and to such the Elizer is presented as the balm of item. The more failed of consolation, hence and perfect restors. The more failed the city of the desired of the disease days in the disease days in the disease days of the disease days of the disease.

URBAN & DIDLAKE, 35 Third Street, Louisville, Ky.

Dr. Urban's Vegetable Fever and AGI B POSSIBLES

The unit sure remedy over switch for Chills and Free, an warranted to cure, in all cases, if taken according to directions.

It curves, when taken not constraint of these according to directions.

It curves, when taken necording to directions, in TWENTY MINUTES, leaving no fever, after the Chill; very seldom requiring more than ONE DOSE to make a PZEMA-NENT CHIRA. A great number of cases, from two to fire years standing, have been CHRED with the EHRST DOSE, and the Chill has never, as yet, returned. The beauty of this medicine is, that it stops the Chill in TWENTY MINUTES, or-less; and the patient will be entirely clear from Favor rafter the Chil, which is not the case who anyother medicine is used. It has superseeded all other preparations witerever it has been introduced.

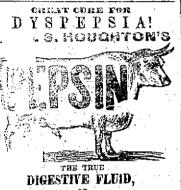

Read what the Editors of the Lonisville Democrat asy from their own observation:

"Dr firban's medicine for the cure of chills and fever has effected some wonderful cures in our own midst. A young man who has resided for several years in Louistans, reached New Alhany a few wades since, weak and emaciated—literally word out physically, with iong continued chills and fever. He made a short-it say at the home of Judge Smith, where his old disease continued with no less screenty than at home in Louistans. Having exhausted almost every remedy known to the medical probasion, he precured a box of Dr. Vironit's celebrated mellicina, and after taking two powders was entirely relieved as d restoped. O lonish it has been woil sever effects and in how fair regularing in the first man of the conduction of the New York of the force of the conduction of the conduction of the conduction of all the principal Dringsits in the country.

This medicine can be had to the manufact rest D. post of the conduction of all the principal Dringsits in the country.

Prof. O. J. Wood—Dear Sir:—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state, for whomsever it may concern, that I have used it and known others to use it—that. I have for savernly oars been in the habit of using other. Hair Hectoratives, and that find yours vastly superior is any other I know. It entirely cleanes in head of daderuff, and with can month's proper use, will restore any person's halt to the original youthful color and texture, giving it a beaftly, soft and glossy appearance, and all the without discoloring either the hamis which apply it, or the dress on which it drops. I would, therefore, recommend the use to very one desirous of having a fine color and taxture to bair.

Sr. Lovis, June 29, 1853.

Prof. Wood—Dear Sir:—As you are about to prepare and vend your recently discovered list? Rottonity, and set you request my opinion of it, I will state that my heir was a few months elnee, very gray, and after using two bottles of your Hair Restorative it assumed its original color; and since its application all Landroff has disappeared from my head, and I have been troubled with no disagreeable incling of the scalp. I am assisted that those who use it will not regret it, no it gives the hair not only its original color but it gives it the appearance of having been recently olida. I am prepared, therefore, to recommend its use to all whe are desirous of having a beautiful bead of hair.
